It is where my father goes for his dentist appointments... after he was done, he told me the doctor is good, she doesn't make my mouth bleed like the one before... I remember just sitting in the waiting room, I could just hear the doctor laughing because I guess is that my father was being the funny guy he is... I would say this place is good if you would like to try it...

De Patel is amazing! By far the very best dentist I have ever seen. She is extremely knowledgeable and instantly puts you at ease. I have had a tremendous amount of dental work done prior to seeing her and had very little faith left in any dentist. I highly recommend seeing her. Alex & the staff are great as well. Very welcoming, friendly and super accommodating. I couldn't be happier!

Great place. Staff are very caring and warm. The dentist always takes the time to explain things and you can ask questions. I have been coming for years now. Everyone tends to give advice but you always feel like they have your best interest in mind. They really work with your insurance company to get the most out of your coverage and if there are any gaps they can help set up payments that aren't going to burden you. Makes going to the dentist a lot less stressful.

They are all wonderful! The staff is very helpful and make you feel comfortable. The dentists are gentle and caring.

I am very nervous and hate pain. I honestly have had no pain during procedures. All of my family goes to Sherwood Dental!

I would definitely recommend them to anyone!

The receptionist Alex has always helped me and made each visit wonderful.

We have attended ever since our previous dentist retired.

Dr Patel is wonderful, skillful, talented. She spent time explaining what was going to happen, took the time to make sure I was comfortable... I have had a lot of work done by others dentists, never had a good experience with the others denists, but with Dr Patel and her staff was the best experience. I have recommended this office to my family and friends...thank you for everything that you have done ...

I am a long standing client. As a child and younger adult I was a patient of Dr. Monheit. He sold his practice to the Sherwood Dental team and I've never considered looking elsewhere. The Sherwood Team takes the time to connect and get to know their patients. The reception team is friendly and it is always a pleasure talking with them and Alex. They take great care of us and work with us for payment through our benefits providers. My husband switched from his dentist in Stratford to Sherwood in the past 4 years or so and has been well taken care of.

Love this place. Staff is very friendly and accommodating. Both me and my daughter go there and my daughter loves it as well. She is only 6 but, thanks to the doctors' experience and their attitude, she enjoys going there, in comparison to other dental offices. I can't believe how she is looking forward to her next dental cleaning and check up!!! Would highly recommend.

I am a new patient at Sherwood Dental, having just moved to the area recently. I suffer from trigeminal nerve damage, resulting from a dental procedure I had in 2015 (by a dentist in the city where we previously lived) and deal with permanent, constant burning pain and numbness in my face. As such, going to the dentist is now extremely daunting for me. The staff at Sherwood Dental went above and beyond to make me feel as comfortable as possible. The dental hygienist, Aasia, was amazing. She was gentle, careful, and so thoughtful. The administrator, Alexandra, was also extremely kind and helpful. While dental visits will always be very concerning for me, because of my trigeminal nerve injury, I am very grateful to the staff at Sherwood Dental for their patience, concern and care.
